Piece by Piece, We Build Belonging!

Work together to complete these creative gratitude missions! Students can work independently, with partners, or in small groups. Multiple students can complete the same challenge.

ROW 1

Secret Thank-You Mission: Create a surprise note of appreciation for someone and find a thoughtful way to deliver it.

Gratitude Soundtrack: Choose a song that reminds you of someone or something you're grateful for and add it to a class gratitude playlist.

Classroom Glow-Up: Work with classmates to tidy, organize, or brighten a shared space to show appreciation for your classroom.

Gratitude Graffiti: Create colorful artwork celebrating people, places, or experiences you're thankful for.

Gratitude Riddle: Write three clues about something you appreciate and challenge classmates to guess what it is!

ROW 2

Gratitude Detective: Investigate your classroom to discover three everyday things that make learning easier or more enjoyable. Share what you found!

Compliment Confetti: Write things you appreciate about your classmates on colorful paper shapes and combine them into a cheerful display.

Gratitude Freeze-Frame: Team up to create a silent pose representing something you're grateful for. Can your classmates guess what it is?

Tradition Swap: Exchange stories with someone about a meaningful family, household, or community tradition.

Community Superheroes: Create a superhero character inspired by someone who makes a difference in your community.

ROW 3

Gratitude Time Capsule: Draw or write about something you're grateful for today. Save it to revisit later in the school year!

The Little Things Challenge: Choose an everyday object you appreciate and create a funny commercial or advertisement celebrating it.

FREE SPACE: Our classroom is better together!

Gratitude Story Swap: Trade stories with a classmate about a favorite memory or experience you're thankful for.

Nature Appreciation: Find something wonderful in nature and capture it with a sketch, poem, or descriptive words.

Mission Guide, continued

ROW 4

Gratitude Scavenger Hunt: Find five things in your classroom or school that you're grateful for and explain why each matters.

Gratitude Puzzle: Each participant decorates a paper puzzle piece with something they appreciate. Combine the pieces into one classroom puzzle!

Pass It On: Remember something kind someone did for you and find a way to pass that kindness along.

Gratitude Museum: Create a mini museum exhibit featuring an object, drawing, or symbol that represents something meaningful to you.

Unsung Hero Hunt: Identify someone whose contributions to your school often go unnoticed and create a message or artwork honoring their work.

ROW 5

Gratitude Jingle: Create a short song, rhyme, or cheer celebrating something your class appreciates.

Community Gratitude Map: Draw a map highlighting people and places that make your community special.

Gratitude Interview: Ask someone about a person or experience they're grateful for and share something you learned.

Classroom Traditions Challenge: Work with classmates to invent a small gratitude tradition your class could continue throughout the year.

Create Your Own Mission: Dream up a new, creative way to express gratitude, then put your idea into action!

Teacher Tip: Set aside 5–10 minutes each day for students to share their completed missions and mark the class BINGO board. Allow 1–2 weeks, or keep the challenge going! Students can share privately or through their creations.
